WCG IMAGING

Full-Service Medical Imaging Core Lab Providing Comprehensive Solutions

Improve clinical decisions, imaging operations, and exam workflow efficiency with WCG's full-service medical imaging core lab. **Leverage WCG's streamlined processes to get your studies up and running in as little as one week, so you can go-to-market faster.**

An industry leader in conducting multi-case multi-reader studies to evaluate Artificial Intelligence (AI) and Computer Assisted Detection (CAD) systems, WCG provides the most efficient means for sponsors to assess clinical performance of their AI/CAD software and obtain required FDA clearance.

With our team of more than 1,100 board-certified and fellowship-trained physicians, WCG's Imaging team has sub-specialization in all therapeutic areas, including Hematology/Oncology, Cardiology, CNS, Gastroenterology, Musculoskeletal, and Ophthalmology.

Building a high level of trust and reliability with your imaging partner is critical to increase trial efficiency, reduce errors, and improve customer satisfaction. Offering one of the most comprehensive and sophisticated quality management systems in the industry, WCG is the only imaging core lab in the world to hold three ISO quality management system certifications specifically for providing imaging core lab services in clinical trials.

ISO certifications include:

-ISO 9001 Quality Management
-ISO 13485 Medical Device Quality Management
-ISO 27001 Information Security Management
